## History Denied: UFO Secrets Of The US Government with Sergeant Clifford Stone

Since his retirement in 1990, Sergeant Clifford Stone has amassed one of the largest collections of legitimate government documents suggesting that not only that some UFOs may be extraterrestrial craft, but that our government has continuously lied to us. "The reason I'm trying to get information out concerning UFOs and the reality that UFOs do exist, and our government knows about it, is very simply put: government never has the right to lie to the people. The government has a moral obligation to tell the people the truth, and tell them as much as they can. I being in the military at one time, I have a keen understanding that there are certain things you have to keep secret, even from your own people in order to ensure that it doesn't fall into the wrong hands. When it comes to UFOs, this isn't the case. We are doing a much larger moral wrong by keeping the information classified as opposed to a moral good to protect us from ourselves."
