Hybrids –
Genesis 6…

I hope this picture unnerves you as much as it did to me the first time I viewed it. In the third book of the Nephilim Trilogy, The Revealing, there is a female hybrid, Sene who seduces an unaware former priest. Here is what fellow author Tom Horn had to say about this scene.

…. we encounter the astonishingly creepy and succubus-like creature, Sene, as she seduces one of the series's most interesting newcomers, Fitzpatrick. This is just one of Marzulli's chapters that will raise the hair on the back of your neck.

I get a lot of email everyday from people all over the world. I try to read every one of them. I'm still about 800 posts behind. There was a recent post that came across my desk. It was snapshot into the life of a male abductee, who had been "taken" since he was a small child. Now his son is being abducted. He left me his phone number and I called him. He's in communication with the grays and is confused as to whether they are good or evil. I told the man in no uncertain terms that these entities are not from some star system, but are interdimensional beings, that they are in the words of Jacque Vallee, messengers of deception!

They lie all the time. I also explained to him that there was a way to stop the abductions and get out. He seemed interested in doing this, and yet, he had such a fascination as to what these beings wanted that it was difficult to want to actually let go of his experiences. He also asked what was the purpose of the breeding program? I told him that the breeding program echoes what happened in Genesis 6, although it is different. As my friend Jim Wilhelmsen points out, the fallen angels no longer take wives as they did in the Genesis account, now, they just take the women and use them to create the hybrid, fallen angel/human. Added to this was the startling information given to me by Doug Riggs in regard to Satanic Ritual abuse, where the Nephilim mothers are now non-blood lines. This duplicates the Genesis 6 paradigm exactly. I believe that the hybrids will be used to control and give orders to satanic super soldiers, those men and women whose personalities have been demonically split, as Russ Dizdar informs us in his book, Rise of the Satanic Super Soldiers. Much of this will sound strange to newcomers to this BLOG. I understand, but you don't know what you don't know and just because it sounds strange doesn't invalidate the reality of what is going on. We are told that it will be like the days of Noah. I believe that we are in those days. UFOs are real, burgeoning and not going away. It's time to address the phenomena and see what world view best encompasses it. I believe hybrids are real and they are integrating into our society. The supernatural is manifesting as never before.

I will be in Nashville speaking this weekend. I will give two talks – Part 1 & 2 – that will come from my Politics, Prophecy & the Supernatural book. There is so much that is going on and I'm excited about being able to speak about it! I believe that events are accelerating toward a climax. Are you prepared?

There were a lot of comments yesterday regarding whether or not we should be armed. Here's what I think. We should be trained professionally in the use of a firearm and be ready to defend our family. It's our 2nd amendment right to bear arms. We should also have about 4 to 6 months worth of food and water on hand. We should also find others who are like-minded so that in the event of an emergency we're not alone. All one has to do to see how important this is, is to look what is happening on our Southern border. We are hearing that local law enforcement is telling its citizenry to arm themselves because they can't protect everyone! That's why it's important to be armed. Think of the rancher who was shot a few weeks ago, most likely from a drug smuggler. In times of chaos and uncertainty we need to be able to defend our loved ones.
